Re: Application/Control Number: 10/780,190
Art Unit: 3677

AFTER-FINAL AMENDMENT

Dear Mr. Miller:

Your precise instructions on the phone helped me prepare this response to your Office Action Summary dated October 28, 2005. I only hope my corrective actions listed below satisfy all the requirements.

1. Drawings

Figs. 12 and 13 are cancelled on Attachment A – Amended Drawing submitted on June 25, 2005. These two figures relate to Claims 15 and 16 which are also cancelled. (See Claims Rejections below).

By canceling these two figures, I revert back to the original drawings including Figs. 1 – 11. Figs 10 and 11 are herewith resubmitted.

2. Specification

My substitute specification filed 06-25-2005 failed to conform 37 CFR 1.125(b) and (c), and introduced new matter into the disclosure of the invention. Therefore I revert back to the original specification submitted on 17 February 2004, which does not include paragraph [0042] of the substitute specification.

However, I resubmit the original abstract in a single paragraph form.

3. Claim Objections

Original claims 1 - 12 were cancelled, and new claims are numbered consecutively 13 - 16.

A word "portions" in Claim 13 was changed to "walls."

3. Claim Rejections

Claims 15 and 16 are cancelled because they constitute new matter not supported in the original disclosure of the invention.

4. Allowable Subject Matter

Claims 13 - 14 remain the primary interests of this application.

I look forward to receiving your favorable ruling on this application.

Sincerely yours,

Kueun Choi
